Accessories

Water Cube™	Anticalc cartridge	Humidifier filters	Dual Filter™	Replacement filters	Essential oils	Fragrance globes	Fragrance pins NEW	Cleaner & Descaler
Air humidifier	Air humidifier	Air humidifier	Air purifier	Air purifier	Home fragrance	Home fragrance	Home fragrance	Cleaner & Descaler
<p>The Water Cube™ by Stadler Form provides optimal hygiene in your air humidifier. It keeps your humidifier running smoothly, extending its lifespan. The Water Cube even works when your appliance is switched off, so the humidifier stays fresh all season long. We recommend replacing the Water Cube at the start of the humidifier season.</p>	<p>Say goodbye to the irritating white dust produced by ultrasonic systems. The anticalc cartridge makes hard water soft and thus reduces the undesirable emission of calcium particles into the surroundings. Effective for one to three months, depending on water hardness. Suitable for all ultrasonic systems with compatible water tank lids.</p>	<p>The humidifier filters ensure optimum output of evaporative humidifiers. Thanks to the antibacterial treatment, the material remains clean. The filters are made from plant- and textile-fibre. In order to maintain hygienic humidification and a high level of efficiency, the filters must be replaced every two to three months. Available as 2-pack, 4-pack or 8-pack.</p>	<p>The Dual Filter™ is a combination of HEPA and activated carbon filter. The HEPA part filters pollutants out of the air, such as fine dust, pollen, viruses and bacteria. The activated carbon filter adsorbs gases (bad smells, tobacco smoke, formaldehyde, toluene, volatile organic compounds, etc.). The Dual Filter™ has to be replaced every 8–12 months.</p>	<p>The replacement filter pack for Viktor consists of a pre-filter and an activated carbon filter. The pre-filter protects Viktor from large pollutant particles and the activated carbon filter removes unpleasant odours from the air. Both filters should be replaced after no more than six months' use, depending on the degree of air contamination.</p>	<p>The 100% pure essential oil blends REFRESH, RELAX, REPEL, RECHARGE and RELIEF generate a pleasant scent within the room. Stadler Form oils are manufactured from high-quality plant essences and packaged by hand. The oils originate from ecologically sustainable production, are not tested on animals and contain no synthetic substances, pesticides or parabens.</p>	<p>The fragrance globes will distribute their scent for up to 4 weeks in continuous operation. Made of richly fragranced, bonded pearls – suitable for home fragrancing with Lina, Tina, and Nina. Available in 6 different varieties: Red Jasmine, Orange Bergamot, Yellow Vanilla, White Amber, Black Orchid, Blue Rosewood.</p>	<p>The handy fragrance pins will instantly turn your air treatment device into a room fragrances. Each pin is especially rich loaded and will emit a long-lasting, aromatic fragrance for up to 21 days. With the practical pins, the easy regulation of fragrance intensity is guaranteed: for a more intense fragrance, simply attach two, three or more pins to your device.</p>	<p>The Stadler Form Cleaner & Descaler has been specially developed for the hygienically cleaning and effectively decalcifying humidifiers. The Swiss original against limescale from Durgol® is easy to use, gentle on materials, odorless and quick and effective. The product is biodegradable.</p>
